## ROSE FOUNDATION END-USER REQUIREMENTS

ROSE Foundation requires all the End-Users to meet the following requirements before they can be fully accredited and be permitted to receive the used oil from accredited used oil collectors:

1. Sign the ROSE Foundation application form
2. Submit the copy of the Waste Management Licence from the Department of Forestry, Fisheries, and Environment (DFFE) for the site in which the used oil will be used.
3. Submit the copy of the Air Quality Permit approved by Department of Forestry, Fisheries, and Environment.
4. Continuously meet all the Waste Management Licence, and Air Quality Permit conditions, including, but not limited to environmental audits
5. The audit reports, especially the external audit report must be made available to the ROSE Foundation, if and when requested.
6. Provide list of activities in which the used oil will be employed e.g brick making, foundry, furnace, kiln, smelting etc.
7. Sign the end-user agreement from the ROSE Foundation once the abovementioned documents have been received
8. Make sure the storage of used oil on the End-User site adheres to all applicable legislations (National, Provincial and Municipal)
9. Receive oil only from ROSE Foundation accredited collectors and bulking points
10. Submit monthly declaration report of all receipts and the from whom oil was received
11. Attend all annual roadshows convened by the Road Foundation
