ROSE FOUNDATION
GREENER TOMORROW WITH YESTERDAY'S OIL

VISION

Ensure that **ALL** available used lubricating oil and related waste is collected, recycled, and managed in an environmentally responsible manner.

MEMBER'S PLEDGE

I pledge to:

1. Be a contributing member of the small plastic lubricant packaging EPR Scheme represented by the ROSE Foundation
2. Promote the prevention of pollution of the environment by used plastic lubricant packaging South Africa
3. Champion responsible collection, transportation, storage, and processing of used plastic lubricant packaging
4. Create awareness about the harmful effects of used plastic lubricant packaging to humans and the environment
5. Encourage all generators to use ROSE Foundation accredited collectors to dispose of their used plastic lubricating packaging and related waste
6. Promote the recycling of used plastic lubricant packaging by facilities that are in possession of a valid Waste Management License/ Recycling Permits issued by the Department of Fishers, Forestry & Environmental and relevant authorities
7. Encourage all plastic lubricant packaging manufacturers, converters, importers and brand owners to become active participants in the efforts to recycle used plastic lubricant packaging in a responsible manner.
